EBTRON a measurable difference!

Precise Airflow Measurement
Thermal Dispersion Technology, Air handling unit airflow measurement, Fan array & duct airflow measurement, Thermal imaging population counting for demand control ventilation.

GPS

Needlepoint Bi-Polar Ionization (NPBI) Technology
Engineering air for a cleaner world using patented technology through soft ionization with no ozone generation, UL2998 certified VOC and Odor Control

neptronic

Steam Humidifiers and HVAC Controls, Valves, and Actuators

Danfoss

Drives and Soft Starters
Variable Frequency Drives and Soft Starters

Badger Meter

Flow and Energy Measurement
Measure and control the flow of liquids, gas, and steam. Energy (BTU) meters and submeters. Ultrasonic, Electromagnetic, Thermal Mass, Impeller, Vortex style meters. Specialty flow meters.

TSI®

Lab & Critical Room Controls
Laboratory and fume hood controls, Isolation room pressure monitoring, Cleanroom monitoring systems, and Particle counters for compounding pharmacy rooms

HYGROMATIK WE HUMIDIFY THE AIR

Steam Humidifiers & Generators, and Pressurized Steam Injection Systems
Specialty humidifiers for spa rooms.

UVR UV RESOURCES

The leader in UVC Disinfection and HVAC Efficiency & Energy Savings
Full line of HVAC products for ducted applications, fan coils, VRF systems, PTAC's, mini-splits, etc. Upper room air disinfection models are available.

SKYBLADE FAN CO.

Sky Blade - HVLS Fans
Up to 24' diameter fans for commercial, industrial, and agricultural applications.

purafil Filtration Group

Odor/Corrosion Control, Microbial Filtration & Toxic Gas Scrubbers
Portable Air Cleaners

Raywall Comfort Conditioning Products

Efficient Electric Duct Heaters
Reliable, efficient electric heating for HVAC duct systems with precise temperature control.
